FORTIFICATIONS IN MAINE
Major GRAMM, of the U. S. Engineer department left this city on Friday last for Houlton and the St. Croix river with instruments to make a scientific survey of the spots selected in that part of the State by Gen. Wool. We understand the result of Gen. Wool's examination in this State will be the recommending of the establishment of an Arsenal at Bangor, the erection of a Fortification at Bucksport narrows on the Penobscot river, and a Fortification at the mouth of the Kennebec. The establishment of a military post at Moose river, on the Canada road, and an advanced post on the Highlands, near the line. The establishment of a military post at Calais, and a post of observation in the town of Weston on the Calais and Houlton road near the Schoodic lake, and another post of observation in the town of Aulic. We learn also, that Gen. Wool speaks in the highest terms of praise of the country on the route of his examination and particularly of the region of Moose Head Lake, and predicts that the time is not far distant when Maine will stand foremost among the States in the Union in point of wealth and population.
It would seem at last that the time is approaching, when, under the friendly auspices of a vigorous State policy, MAINE is beginning to awaken to the true sense of her great and natural resources. Give her the fortifications and military posts which belong to her frontier, give us good roads and canals into our broad and fertile interior, and above all, give us a little of the spirit and enterprise of some of our sister States, and "Dirigo" would no longer be an unassuming inscription upon her coat of arms.

BASE AND INFAMOUS LIBEL OF THE ARGUS NAILED TO THE COUNTER.

Our readers will remember that we republished the article entire from the Eastern Argus, headed "Humbog Exposed," containing sentiments as false as they are highly prejudicial to the interests of the State, together with an unjustifiable, ungenerous and malicious attack upon a most faithful and energetic public officer. We knew that such an article would redound to the shame of the town, if it could be made sensible to such feeling, and to the prejudice of the party to whom he might belong, who would be guilty of penning as base a libel against the State, so detrimental to its interest, merely for the effect it might possibly produce favorable to "the party."
The libel is now nailed by responsible men who know the value of the lands. They come out with their own names, and some of the signers are the political friends of the Argus itself! What say to this? Will the Argus retract its "malicious falsehood," "branded" as such by men who know it to be so? Will that paper publish their statement as an act of justice to the State, to the men who have signed it, and to many individuals who have become and are about becoming interested in these lands, or will it persist in its usual course of keeping back the truth and throwing dust into the eyes of the people? We shall see.

TO THE PUBLIC.

Our attention has been called to an article in the Eastern Argus, copied into the Spirit of '38, headed "Humbog Exposed," in which we find the following language respecting township No. 3, range of townships west from the east line of the State.
"We are informed by one who knows something of the matter by experience, the township No. 3, range of townships west from the east line of the State, was found to contain 13800 acres of land of ordinary weight by settle-ment. That the ability to change his loca-
tion, at the king of the exertions to get settlers on this township, was never practical. As citizens of the State we regard her prosper-ity as our own. We are in the township above mentioned in cutting and clearing, and most of the land has been on the town-ship for many years, and is thoroughly and well settled. From our own knowledge, we think the assertions of the Argus are entirely untrue. We think the ad-
mission, in any re-lation to the land, is a libel and correct

PIRATES. The brig "Cerberus" at New York from Charleston was boarded by a pirate on the 4th of July, lat 35, 13 N long 47, 30 W, find- ing no money on board took a box wine, some water and provisions and left her. There was \$1500 on board which the captain threw into a water cask and thus succeeded in saving it.
The British brig Isabella was boarded on the 5th July, lat 49, 30, long 34 20 by a pirate and robbed of spare sails, cordage, canvas and twine, and the passengers and seamen were also robbed of every thing which answered the pur-
pose of the pirates.

THE ROBBERY. The hat, and one of the wal-lets containing \$15, belonging to Mr. Young who was robbed lately on Tukey's bridge in Portland, has been found on the beach. The wallet containing the \$600 which belonged to individuals in Portland, and which Mr. Y had collected on executions has not yet been recovered, nor has any clue been found to the perpe-
trators of the robbery.

There is no news in the papers received by this morning's mail. They are all filled with the speeches delivered at the Whig Festival, and the doings at the Coronation of Victoria.

To the Editor of the Whig & Courier.

Loco focism is the same every where. It is not at Washington alone that the interests of the people have been sacrificed to the interests of the loco loco party. The same game has been played in Maine. A subversive set of whipped Spaniels have been enacting the part of legislators for the freemen of Maine. In obedience to instructions from Washington, they have systematically for years past sacrificed the interests of the people of Maine, to the good of the loco loco party. If the measures and policy of Governor Lincoln had been pursued, the Northeastern boundary question would have been settled years ago. The line of the treaty of '33 would have been run and marked and established; and we should have had before this time a good road from Bangor to the "town of Madawaska." Yes the town of Madawaska! incorporated by the Legislature of Maine, and organized under a warrant issued by Judge Williamson; it would have been represented for several years past, in our Legisla-
ture, if the policy of Gov. Lincoln had not been abandoned and the interests of the loco loco party had not prevailed over the interests of the people in the question of the Northeastern boundary.

Governor Lincoln enjoyed the fullest confi-
dence and affection of the people. Why? be-
cause his object was the good of the people, not the good of a party. By his untimely death the people throughout the State felt that they had lost a friend. In accordance with the wishes of the people, he was buried on the pub-
lic grounds at Augusta. The people desired that a monument at the public expense should be erected to his memory. The loco locos for-
bid it, and by a mean and insinuating party ma-
jority in the Senate, they succeeded in defeating the wishes of the people. Why did our loco loco Senators shew this marked disrespect to the memory of Lincoln? We read of those who hate the light because their deeds are evil. So it is with our loco locos. They hate the memory of Gov. Lincoln, because his patriotic course is a reproach to their party baseness. He served his country. They serve their party. His object was the good of the people, theirs the good of their party. His measures promot-
ed the interests of the State. Theirs sacrificed the interests and honor of the State to the good of loco focism. No wonder they would not vote him a monument. They had no feelings or sentiments or wishes in common with him. The resolve authorizing the Governor to erect a monu-
ment over the remains of Governor Lincoln passed the house, only 15, and those the most desperate of the loco locos, voting against it. The resolve was sent to the Senate. That bril-
liant loco loco, Mr. Higgins, of Exeter, moved that it be indefinitely postponed! He with eleven of his compeers, being a majority of the Senate, voted for the motion and it passed. Of the assembled wisdom of the State comprising a large mass of loco locos, only twenty seven could be found who were bold enough to vote against the resolve, though those who dodged the question rejoiced in the defeat of the measure. Why is Senator Higgins unwilling to shew this mark of respect to the memory of an able and excellent public servant? It could not be from motives of economy, for the same senator Higgins procured to be passed a resolve grant-
ing \$200 a year to the Exeter High School for 3 years. An institution which never was heard of till its fame was proclaimed by him; and which from present indications will not very long outlive the political celebrity of its found-
ers. If the objections were not pecuniary, and it seems they could not be, by the readiness with which the Senate voted money to this in-
stitution, which like Jonah's gourd sprung up in a night, they must have been political. They indicate then the settled opposition between the principles of the loco locos and the principles of Gov. Lincoln. Gov. Lincoln was for having the Northern boundary settled, and for insisting on the line of the treaty of 1783. The loco locos were for deferring the settlement to suit the convenience of their friends at Washington, and instead of insisting on the line of the treaty of '83, they proposed to sell our and take their pay in Michigan lands. Their commis-
sioners who were sent to Washington in 1832 made such a proposal, but they had the grace to be ashamed of their doing, and recommended that their report should be put up and hid from the people, and it was so done, and kept concealed six years, until a big opportunity in the house and a whig governor, exposed the bare and shameless transaction. If it takes six years

for the people to find out what their loco loco
commissioners were doing, with the
northeastern boundary question, they may feel
assured that the party who appointed and
joined these commissioners, would never bring
the controversy to a successful issue.

LEXINGTON.

In my last communication the sentence,
printed, "The people -- that the union of their
powers, &c." the word their should be these.

The compliment paid to the talents of Mr. and
Mrs. Horn in the following communication is
just, as all will be ready to testify, we have no
doubt, who heard them on Thursday eve. -- those
who did not will have an opportunity to to-mor-
row evening, which we hope they will improve.
We like the suggestion of our correspondent in
relation to a sacred concert, and if any thing is
to be done it should be done quickly.

[For the Whig and Courier.]

Mr. and Mrs. Horn gave their Concert on
Thursday evening to a full and delighted audi-
ence. It is seldom we are visited by vocalists
who have studied this art to such perfection and
received their education from foreign masters
of the first reputation; therefore in Mr. and
Mrs. Horn we have an opportunity of not only
being highly gratified but receiving instruction
of the first order; of Mr. Horn, as a Vocalist
and Composer, we have frequently heard. His
reputation as such in London as well as in New
York and his compositions are too well known
for me to comment on excepting that all were
highly gratified. Mrs. Horn, a lady whose style
and deportment confirms what proper instruction
and attention will attain, convinced us, we never
heard the simple, pure and unaffected ballad
sung with more sweetness and simplicity than
on Thursday evening. "The Angels Whisper,"
and "Long Time Ago," the words of the last
by the talented editor of the Mirror, G. P. Mor-
ris, were both rapturously encored, and the very
quiet, easy and graceful manner in which they
were given, aided by a voice of most exquisite
tone, rendered them more effective than any
thing we had ever heard of the kind before.

While the duettos and other pieces were given
with great spirit and energy. We are glad to
find when such Professors visit us that there is
no want of patronage in our community, for
the most respectable were present, and while
we are on the eve of adding to our musical
character in the meeting of The Sacred Society,
we should lose no opportunity, (with such a
school before us) Might not a Sacred Concert
be given before Mr. and Mrs. Horn leave, in
conjunction with the Society? Their last Con-
cert is on Tuesday evening next, and will no
doubt be crowded. Why do we not build a hall
for such treats?

Musics.
Mr. Editor: We were glad to see the
notice of the Bangor Sacred Music Society, ex-
hibiting the character and design of that im-
portant institution. We consider that Society
important on account of its influence on the
course of Sacred Music in this city. It is a con-
centration of musical talent as it exists in this
place, and affords thorough discipline to its
members. It is a main-spring to the cause
here. Its effects will be felt in every choir in
the city. All the knowledge and taste here, or
that may be brought here, will, through this
channel, be made tributary to every church in
the city. But its influence will not stop here.
The city is intimately connected with the coun-
try. If a good standard of taste and execution
is promoted here, it will be felt in all this re-
gion.

The Society has projected a wide field of op-
eration and usefulness, a field well worthy the
interest of every lover of social and human
improvement. If it is encouraged and wisely
conducted, as we think it will be, its desirable
objects will be obtained: and when obtained,
will be highly honorable to Bangor. The ex-
penses of such a Society must be considerable.
It must have a musical library of considerable
extent to be at all furnished with the means of
its own improvement, or of accomplishing its
other important ends. They need a much more
spacious hall than can be found in the city for
their rehearsals; but that obstacle must for the
present be waived.

Whatever fastidiousness or error there may
be in the public taste, that society should rap-
idly aim at what is thorough and correct, and their
efforts will be rewarded.

SHIP NEWS EXTRAOR- DINARY.

PORT OF VINHAYEN.
July 24. Arrived, this morning, fast sailing
ship Louisiana, Roman, master, laden with
American produce, and bringing advices of the
2d, 3d and 4th inst from New Orleans, which
state that Whig stock is rapidly advancing
sales 75 to 85 per cent advance tory stock,
hardly worth quoting nominally 85 to 95 per
cent below par no sale. The Louisiana passed
off the south part of Deer Isle a long, low,
black, piratical looking schooner, supposed to
have been formerly a revenue cutter name of
Capt unknown, as the commanders are fre-
quently shifted, to avoid detection. On the fore-
topmast was blood red British flag with letters
marked "REPEAL OF THE DANCEACT." At
the main topmast head was a dark faded signal,
marked "EVIL SPIRIT OF '38." She had also
hoisted at her peak a tattered American ensign
union down. The ship was heavily laden with
bales of Sub-Treasury papers from the Customs
authorities, to teach the fishermen and yeoman-
ry of the islands in Penobscot Bay how to vote
in Sept it is supposed she will go as far east
as the lower line of New Brunswick County after
touching at the various depositories of contra-
band articles. The seeclectors of the islands
and upon the shore above must keep a
sharp look out for these enemies of the People
and by Sept. next drive away every pirate from
our shores.
They may be easily detected by the flag they
carry.

the people, and the August, on her
last voyage, she was on a Sunday may be
caught in her upper part, and if it had not
been for her being discovered by a passenger, she
was indisposed and went on deck, the conse-
quences would doubtless have been most appal-
ling -- it was, the fire was extinguished with-
out doing much injury. (Mer. Jour.)

Verdict No. 100. We learn from the
Municipal Watchman that the Whigs of Green
Mountain state have put all their present rep-
resentatives in Congress of the true faith in nomina-
tion for re-election, viz Messrs. Allen, Hall,
Blade and Everett. We have little doubt of
their success by handsome majorities.

The remaining district is represented in the
present Congress by a Loco Foco, named Fletcher.
The Whigs have made a popular nomina-
tion here and will make a powerful effort to sus-
tain it.

"Why should not Edward Kent be re-elected?"
We have not, thus far, seen a single satisfactory
reason assigned why Gov. Kent should receive
the honor of a re-election at the hands of the
people of Maine. [Argus.]

Then you acknowledge, Mr. Argus, that he
has once been elected. Really, that is chang-
ing your tune some. As for reasons they are
the last things that your party look at, and the
very things you most dread. We will give you
a few.

1. He is an honest man.
2. He is a consistent Whig.
3. He is a true patriot.
4. He is opposed to all the disorganizing and
levelling schemes of loco loco Toryism.
5. He is for raising, elevating and lifting the
State of Maine from the low condition in which
the destructive measures of the Tories have
placed it, to its just and proper rank as a com-
munity and a State.

These are a few of the many reasons which
may be given why Edward Kent should be re-
elected Governor of the State; and you may
rely upon it, Dear Argus, that every honest
man every consistent Whig every true patri-
ot every opposer of Agrarianism every real
friend to the State will give him a hearty sup-
port, and RE-ELECT him. [Hallowell Chron.]

CROAKING IN A BOG. -- The Argus has tum-
bled into the "slough of despond," and is piping
a terrible lament about an 18000 acre bog, in
No. 4 somewhere away down East. There is
about as much truth in this story as we gener-
ally find in the Argus. [Ibid.]

The Nachatiches Herald, hitherto a Van Buren
paper has hoisted the Whig flag. It says, "our
penitence for past errors is complete let the
publicly which we give it be the test of our
sincerity."

The following among other toasts were
given at the late Webster dinner in Boston:

The Whigs of Maine. They will neither a-
bandon their disputed physical dominion to Brit-
ish Tories, nor their disputed political dominion
to American Tories.

The Whigs of Massachusetts. Those of the
new State of Vermont and of the little State of
Delaware. A band of Patriots who have never
bent the knee to Bani, nor prostrated themselves
before the image erected for their worship.

Whig principles and the men who support
them. The former are the principles on which
American liberty is founded, the latter its best
defenders. To both we pledge our cordial, un-
wavering support, while life shall last.

The Whigs of Connecticut. They have given
glorious evidence that not only the names, but
the principles of their Sheridans and Ellsworths
are still fresh in their hearts.

The Whigs of New-Hampshire. Let them but
redeem the pledges they have already given, and
follow up the noble efforts they have already
made, and New-England will present an unbro-
ken front against corruption and misrule, and the
"entire North" will be united in defence of the
Constitution.

The pockets of the people. The only sub-
treasuries of Freemen. Hands off. Let us a-
lone.

There is nothing that people bear more impa-
tiently, or forgive less, than contempt; and an
injury is much sooner forgotten than an insult.
Chesterfield

A woman, went into an apothecary's shop the
other day with prescriptions one for her hus-
band, and the other for her cow. She inquired
what was the price of them, and the apothecary
replied that it was so much for the man, and so
much for the beast. The woman, finding that
she had not enough money, reflected for a mo-
ment, and said, "Give me at all events the me-
dicine for the cow; I can send for my husband's
tomorrow!"

A flirtant starchy coquette, on a steamboat,
was asked if she could be helped to a bit of the
fowl. The young trait, wishing to be extremely
polite and facetious on the occasion, with much
dignity of air replied, "Thank you prodigiously,
sir; I'd purfur a nice little immoderate gob
of those ramified passengers."

EDWARD KENT'S MORTGAGE.
In the County of Penobscot, the wealth of
Maine, and the public notice that I
claim the following described real estate, viz. one
undivided tenth part of Township number four, in
the eighth range of townships west of the east line
of the State of Maine, 16000 acres of land, con-
taining twenty-two thousand and forty acres exclu-
sive of reservations for public uses, and I make
said claim by virtue of a mortgage deed, made,
executed and delivered to me by Thomas Ho-
bart, of Houlton, in the County of Penobscot, in
the County of Maine, at New-Brunswick, dated July
23, 1835, to secure the payment of four thousand
and fifty dollars and thirty-five cents, and interest
thereon, for which said sum to be paid, as aforesaid,
the said Hobart gave his three several promissory
notes, dated July 23, 1835, payable to his own or-
der and by him endorsed. And I also give notice
that the said notes are due and unpaid, and that the
condition of said mortgage is broken, by reason
whereof I claim to foreclose said mortgage.
Dated at Bangor this twenty-fourth day of July,

claim by mortgage to the fol-
lowing described Real Estate, situated in Orono, in the County of Penobscot
near the mills erected by Cooper and ails, and bound-
ed on the east by land conveyed by John Brannock
to Smyth, and on the north by land conveyed by
said Brannock to Holway, being the same land con-
veyed by said Brown to Rufus G. Maxfield, and that
he claims to hold the same as aforesaid by virtue of a
mortgage deed made by said Rufus G. Maxfield to
him, dated January 20th, 1834, and recorded in
Penobscot Registry of Deeds, book 44, page 27, to
which reference is hereby made, which mortgage
was made to secure the payment of the sum of four
hundred and twenty-five dollars which has since
become due and payable and still remains unpaid,
whereby the condition of said mortgage has been
broken, by reason whereof said Brown claims to
foreclose the same.

DR. BRANDRETH'S GENUINE PILLS.

Doctor Sangrado's system still lives in the world, to kill, to kill! This system does indeed live still, and is practised by the very men who laugh at Doctor Sangrado as a visionary fool. The immaculate Faculty! Let this truth be impressed upon every mind, that all pain and weakness proceed from the presence of morbid, stagnant and corrupt humors in the body by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take Brandreth's Pills, concocted forth From the pure products of the earth. They own no after sad alloy. They often save, but never destroy! BLEEDING ALWAYS IMPROPER. "For the life of the flesh is in the blood," Leviticus, chapter xvii, v. 11. When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer be thought of as a remedy for diseases, for in violent inflammations, eight or ten of them will take, in the course of two or three hours, more of the impure humors from the body, by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done, and should be remembered that the PILLS remove ONLY those parts from the blood which were the cause of inflammation; whereas bleeding removes the essen- tial parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a dose of this medicine; the body is inde- lightened of a load. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which 84 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills will bring it down. Is it too low? The same means will increase it to a proper standard. Is it irregular, showing nervous ex- citement? The PILLS, by soothing the system will allay it. Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times in a year; and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these PILLS, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and hav- ing a vein opened, they have swallowed six or eight PILLS, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible people, supplied by the use of these invaluable PILLS, are increasing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired. The following cases of cure, by the use of Brand- reth's PILLS, alone, are submitted with respect, to the unprejudiced portion of the Boston public: ASTHMA CURED. The following extraordi- nary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct., deserves, by all persons, a care- ful perusal. The most prejudiced must own that evidence is on the side of these PILLS, which, by the cures they are daily making show there is no neces- sity for any other medicine. This is to certify that Thomas S. Brown, of Greenwich, Ct., was taken with a cold, numb feel- ing, on the 13th of June last. He began to cough and raise phlegm and in the course of twenty-four hours about two quarts of thick white jelly was ex- pectorated. Three physicians in Stamford, Green- wich, and Swampscott, pronounced it a nervous humi- dity, and after prescribing for some time to no effect, the three consulted together, and finally declared that they could do him no good, it would most result in consumption, and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause stranguation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Brandreth's Vegetable Universal Pills, and immediately sent by Capt. J. War- ing of Greenwich, for a box, and found relief in the course of a few days, which encouraged him to per- sistent use, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in con- sequence of taking the above PILLS, which we have also used in our families, and have found them in- valuable. Signed, Greenwich, 22d Feb. 1838. James R. Meas, Daniel S. Betts, John B. Rey- nold, A. Palmer, Rev. R. Palmer, J. R. Palmer, H. Brewster, S. Jessup, James Moore, Hannah Hitchcock, J. Mean, Thos. Bertram, Isaac Olmsted, P. V. T. Jessup, Stephen Waring, John Limbry. Certificate of John Goulden, who has known the above pills forty years: I hereby certify, that I have known Brandreth's Vegetable Universal Pills for upwards of forty years they were used by my family connections, in the county of Dorset, England, since the year 1795, many of whom they cured of old standing com- plaints. JOSEPH GOULDEN. Bridgeport, Feb. 18, 1838. Certificate of cure of CHOLIC, FITS, &c. &c. From a BOSTONIAN, whose address is at the foot. [TRUE COPY.] To Dr. Brandreth: My dear Sir, I write a few lines to inform you that I have been making use of your Vegetable Universal Pills. I have been afflicted with a com- plaint supposed to be caused by PAINT. I was subject to a great coldness through my whole sys- tem, attended with frequent pain and severe cholics; for the year, I have also been subject to fits, which would seize me in the night, and when I have come to myself, I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence, No. 17 Sudbury street, to any one who wishes to inquire. I feel the medi- cine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you. Believe me to remain, Very respectfully, JOHN LAMMUS, Boston 17 Sudbury street. THE WHOLE OF THE PHIBSBURG ESTATE.

The whole of the PHIBSBURG ESTATE, situ- ated in Centre, Clearfield, and Cambria Coun- ties, in the State of Pennsylvania, with all the improvements thereon, is now offered for sale.

THIS Estate comprises about SEVENTY THOUSAND ACRES of Land VERY REA- TELY TIMBERED, and in the heart of the BISMUN- GUS COAL FIELD, upon which are already estab- lished a FORGE for the manufacture of bar iron, with all the necessary appendages. An efficient and well constructed SAW MILL, a SCREW FACTO- RY, with improved machinery, a ROLLING MILL, for the rolling of blooms into round rods for wire drawing, with AIR FURNACE for heating the blooms. An ANNEALING HOUSE, BELLING with a FURNACE and MACHINE for heading rail road screws. A PATTERN HOUSE, con- taining numerous patterns for casting machinery. A CUPOLA FURNACE, where the machinery of the screw factory is cast, and an extensive country business carried on. A BUILDING containing a MILL-HAMMER and SHEARS for cutting iron. A MANAGER'S HOUSE & OFFICE, and BOARD- ING HOUSE for workmen. A valuable GRIST MILL, worked by steam power.

Also, the PROPRIETOR'S HOUSE, beautiful- ly situated, seventy-six feet in front, with spacious piazzas front and rear, and possessing every con- venience calculated for a gentleman's residence. A LARGE and SUBSTANTIALLY BUILT BRICK HOT- TEL, in the town, with all the requisite out-build- ings. A WELL BUILT STONE HOUSE, forty-two by twenty-four feet with the land adjoining. A LARGE STORE HOUSE calculated for an ex- tensive country business. FIVE COTTAGES in the village with gardens attached. A FARM HOUSE with a spacious and well constructed Barn, Granary and out-buildings, and one hundred and fifty acres of highly cultivated meadow land adjoin- ing. The whole estate is abundantly supplied with springs of excellent water, and streams, with water power sufficient for saw mills, grist mills, forges, furnaces, &c. It is situated on the Moshannon and Clearfield Creeks, about ten miles from the river Susquehanna on the north, to which the Moshannon and Clearfield Creeks afford navigable outlets in time of freshets, and about twenty-five miles from the PENNSYLVANIA CANAL on the southeast, to which a highly favorable route is presented for the construction of a Rail Road to the JUNIATA DIVI- SION of the Pennsylvania Canal, through a portion of Huntingdon County, abounding in IRON ORE, of the finest quality, where a number of forges and furnaces have been long established, but which are laboring under difficulties from the WANT of this COAL. A charter has been obtained for the construction of the rail road, THE LOCATION OF WHICH IS COMPLETE, and the estimates furnished, pre- paratory to a commencement of the work. The distance from the COAL MINES to the CANAL is only twenty-eight miles.

THE MAGNIFICENT TIMBER upon this estate, consists of all the varieties usually found in Pen- sylvania, but the WHITE PINE, which is MORE PAR- TICULARLY ABUNDANT, is of the largest descrip- tion, fit for MASTS, SPARS, PANNEL BOARDS, &c. and of an EXCELLENT QUALITY. THE BITUMINOUS COAL is found in every hill, in veins of various thickness, viz: four feet two inches, six feet and nine feet, and there are two, three or four veins in a hill according to its elevation. The quality varies, in different situations FROM THE HEAVY BITUMINOUS SOFT COAL, CLOSELY RESEMBLING THE NEWCASTLE COAL OF ENGLAND, to a much harder and heavier COAL containing less bitumen. LIME STONE, FIRE CLAY and IRON STONE have been discovered accompanying some of the measures, and will doubtless be found to be general, upon a proper ex- amination. A HIGHLY FAVORABLE CHARTER has been granted by the Legislature of Pennsylvania, containing MINING, MANUFACTURING and TRANS- PORTING PRIVILEGES for a period of SIXTY YEARS, authorizing a company to hold this estate in a cor- porate capacity, and to convey to market its vast resources.

Family circumstances however, having occurred, to prevent the proprietor from individually accom- plishing this important enterprise, he would be wil- ling to sell on LIBERAL TERMS, the whole property to a respectable company, who would carry out the provisions of the charter, to whom, of course, he would transfer all its privileges, or he would sell the estate in tracts, to suit the convenience of pur- chasers.

The title to this Estate is INDISPUTABLE, and the SALUBRITY of the CLIMATE is proverbial. Taking into consideration, therefore, the immense quan- tity of the HEAVY and VALUABLE TIMBER upon this estate, the presence of IRON ORE, the UNEXHAUST- IBLE supplies of BITUMINOUS COAL, so essential to the GENERATION of STEAM, the PRODUCTION of GAS, and for domestic purposes and the aris in gen- eral, its ADVANTAGEOUS POSITION, with regard to its communication with the SEA BOARD, its IMME- DIATE PROXIMITY to a region abounding in the RICHEST IRON ORE, in which the WANT of FUEL is already productive of serious inconvenience; and considering also, the highly favorable location of the rail road, intersecting the Pennsylvania canal, and thus affording the choice of both the Eastern and Western markets, and taking into view the many HOUSES, BUILDINGS, MANUFACTURING ES- TABLISHMENTS, CLEARING and CULTIVATED LAND, thus enabling the enterprising company to com- mence their operations, without incurring the HEAVY EXPENDITURE of money, and the GREAT RISK incident to new establishments, it is confidently be- lieved that a rare opportunity is now presented for the SAFE and PROFITABLE investment of capital.

For further particulars, application may be made either personally or by letter, POST PAID, to Samuel Corp. Esq. New York, John C. Montgomery, Esq. Philadelphia, John Norris, Esq. Brown's Mills, Middlebury county, Penn. or to

THE most safe, effectual and economical remedy for diseases of the Human Constitution, that has ever been discovered.

These PILLS are composed entirely of materials ex- tracted from Medical Plants, and are warranted not to contain one particle of mercury, or any mineral substance. Dr. Kingley, the inventor of this valu- able medicine, from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and primary cause of most diseases is a derangement in the functions of the liver; or in other words, an in- creased or diminished secretion of the Bile.

So well is this understood, that it is common for persons to say when they feel unwell, that they are bilious, meaning that they have too much bile in the stomach. On the other hand, when the flow of bile is diminished, the process of digestion is imperfectly performed, the patient becomes weak and emaciated, because nourishment contained in the food taken into the stomach is not properly extracted, and the food is ejected in a crude state. Dr. Kingley is con- fident that the famous Hygean Theory, so called, that "impurity of the blood is the cause of all diseases," is a great absurdity. Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaint. The effect, and not the cause, of the disease. When the functions of the liver are deranged, and the flow of bile increased, it is often taken up by the absorb- ent vessels and carried into the circulation, and be- comes mingled with the blood as in Jaundice, when the patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the bile, and to remedy it you must correct the secretion of the liver and restore it to a healthy state.

Dr. Kingley has spent much time in experiment- ing with different vegetable medicines, for diseases of the liver, and now offers his Universal Family PILLS as the best, most convenient and cheapest medicine that can be prepared for general use; and offering them to the public, he is actuated more by benevolence than pecuniary motives, as the price of the medicine will show.

Dr. Kingley flatters himself that his long experi- menting with vegetable medicines has enabled him to discover the true and only substitute answering all the purpose of mercurials, without any of their attendant evils. One great quality of his family PILLS is, that they have the alternative principle com- bined with their cathartic or operative quality, so that they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate the circulation, and give tone and energy to the nervous system.

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dose. They can be taken with safety by per- sons of any age, and the feeblest, the infirm, the nervous, the delicate, are strengthened by their op- eration, because they clear the system of bad humors, quiet nervous irritabilities and restlessness, from whatever source, and invariably produce sound sleep.
